

My name is Carsten Lorenzen. I am 18 years old and I live on a farm in a small village called Fiefbergen. My Hobby is Basketball. This photo shows me playing at home but I am also playing in an amateur basketball club. With this club I play against other teams in my region.

That is the main building of my family's farm.

This is me playing basketball with my younger and only brother Marten. He is 15 years and goes with me together on the grammar school in Heikendorf.

There are only pigs on our farm, but we have a lot of them.

We have also many fields, where we grow corn. For cultivation we use tractors, which you can see above the text aswell.

In the summer I and some friends of mine often go to the beach near to our homes. The Baltic Sea is just 5 kilometers far away of my home. You are able to swim and Heikendorf to relax there.

David Jacob is 19 years old and he is in the advanced level of Vunjo secondary school. He comes from the center of Tanzania, Sangida Town, which is near the Tanzanian capital Dodoma. Although his home is far away he goes to Vunjo school. His family is a quite well-off family because his father is a doctor and his mother is a nurse. Untypically he has only one sister, whose name is Salome, and no brother. His favorite subject is English and he speaks it very well. So it was easy to communicate with him.

At the Vunjo school and on our journey together with our partners, we talked a lot about our hobbies and our future plans. David told me that he is a big fan of Manchester United and also of the German football club Bayeria Munich. Moreover he likes the wrestling sport, because he is able to watch the WWE in the Tanzanian TV. But even more he likes Acting. That is why his future plan is to be an actor. The second thing he likes to do is singing. I also showed him my music on my mobile phone and he even knew some of the singers. You can see him with my mobile phone on the right photo. His favorite music tends to be R'N'B.
